Jakarta, Indonesia (Open for Relocation)

Summary

Jefta Supraja is a fresh graduate in Informatics Engineering from Universitas Pembangunan Nasional Veteran Jakarta with a strong interest in full-stack web development. He has built end-to-end web applications across frontend and backend, integrating both relational and non-relational databases. He also creates product and visual prototypes, has exposure to game development, and showcases a consistent project track record on GitHub. Known for being persistent, responsible, collaborative, and highly curious.

Professional Experiences

Marketing Communication

Aug 2023 - Jan 2024

Gerakan OK OCE Indonesia

Jakarta, Indonesia

OK OCE Indonesia is a social movement focused on job creation through entrepreneurship and community-based economics. It aims to foster independence and generate widespread employment opportunities for the people of Indonesia.

- Designed visual content and managed social media materials as Graphic Designer and Content Creator for OK OCE platforms, increasing engagement rate across channels.
- Edited and produced the official company profile video, enhancing corporate branding and stakeholder presentation quality.
- Collaborated in planning and organizing in-house events at OK OCE Office, resulting in improved internal communication and community engagement.
